

## *LBA SPECIAL ISSUE – CALL FOR PAPERS*

Guest Editors:      Marcos Heil Costa (Federal University of Viçosa)  
                                 Chris Potter (NASA-Ames)

Chief Editor:        Jon Foley (University of Wisconsin)

**DEADLINE EXTENDED TO SEPTEMBER 15, 2004**

*We are eagerly seeking papers that explore the interactions among the biological, physical and human components of the Amazon Basin. Earth Interactions considers the following kinds of articles:*

- *original research articles*
- *brief “data reports” and “model reports”*
- *review articles*

*Why should you publish your article in Earth Interactions?*

- *There are currently no page or figure charges (even for color).*
- *Authors are given a free, one-year subscription to EI.*
- *The review and production process of Earth Interactions is fast.*
- *The journal is completely electronic.*
- *The special issue is “publish as you go” – papers will appear in a special area of the website, and not wait for the slowest papers*
